

Assignment for Video #10 – Paragraphs

Activity

1. Revisit the outline you constructed in the previous video.
2. Select several main points from the outline and begin developing a paragraph for each of them.
3. For each paragraph you construct, ask yourself the following questions:
 - What is the topic sentence of each paragraph?
 - Is the main idea clear?
 - Does the first sentence of each paragraph let readers know what that paragraph is about?
 - How does each sentence relate to the main idea of the paragraph? Revise or remove any that do not relate to the main idea.
 - Does each paragraph provide sufficient details or evidence related to the main idea?
4. For this activity, attempt to compose at least three paragraphs based upon the outline you have constructed about your topic.
